Welcome Joy - Bring Back Happiness

Presenting

Nmvita

Tablets

Multivitamins, Multiminerals With Grape Seed Extract

Chronic diseases are the leading cause of disability & premature death among elderly population in India

53%
Mortality

44% Disability
- adjusted life
-year last

In acute & chronic condition

12 Vitamins & 7 Minerals fulfill daily Nutritional need
Magnesium: Cofactor for more than 300 metabolic reaction - Helps to improve sleep quality

Zinc: Helps to Improve beta cell function
Helps to lower serum, Total cholesterol & LDL, C¹²

In

- Immune deficiency disorder
- Loss of Appetite
- Fatigue
- Zinc deficiency

Supplement
^R
Nmvita
Syrup

Provides **Zinc, Essential Vitamins & Minerals**

Supports

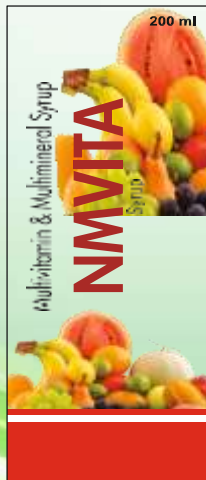

Growth

Immunity²

**Academic
performance³**

In

- Immune deficiency disorder
- Loss of Appetite
- Fatigue
- Zinc deficiency

Specially formulated
Helps to **Boost Immunity**

Iron deficiency anaemia is a serious public health issue

One in every 2 women & one in every 4 men suffers from anaemia

Rx

FEBTONE Syrup

Ferrous Gluconate, Folic Acid, Calcium Lactate & Vitamin B12 Syrup

Bring back the COLOURS to life with

Better Efficacy:

- Ferrous gluconates (Ferrous salt) has three times more absorption than ferric salts
- Ferrous gluconates is the readily absorbable and well tolerated iron salt

Better Safety:

- Less GI Side effect

In

- Iron deficiency anaemia
- General weakness and fatigue
- Convalescence
- Post operative anaemia
- Pregnancy anaemia
- Post partum anaemia
- Anaemia due to AUB

DOSE

**10 ml
BID**

Iron deficiency anemia

R_x

FEBTONE XT

Ferrous Bisglycinate, Zinc Bisglycinate, Methylcobalamin, Folic Acid Tablet

Bring back the COLOURS to life with

- » World's most recommended parenteral iron therapy
- » Provides fast rise in the haemoglobin level
- » Ensure rapid improvement in patients condition

In

- Iron deficiency anaemia
- General weakness and fatigue
- Convalescence
- Post operative anaemia
- Pregnancy anaemia
- Post partum anaemia
- Anaemia due to AUB

Ferrous Bisglycinate

- Increases haematological and biochemical parameters in anaemics.

Zinc Bisglycinate

- A well-tolerated and well-absorbed zinc chelate (one zinc molecule bound to two molecules of the amino acid glycine).
- Reduces the risk of preterm labor.
- Helps in the foetal growth & mother's health.
- Benefits immune functions.

Advantage of Folic Acid

- Prevents NTDs & helps in the process of erythropoiesis.

Advantage of Methylcobalamin

- Helps in the formation of RBCs.

***New Hematinic Formula
For Severe Anemia***

In Allergic Rhinitis

Rx

Leukofex-L Syrup

Levocetirizine Dihydrochloride 2.5 mg & Montelukast Sodium 4 mg / 5 ml

Maximise the quality of life

Encapsulation technology ensures a stable product

Better symptom control of^{1,2*}

Rhinitis and asthma

Calibrated measuring cap

For accurate dosing

Pine Apple flavour

Enhanced palatability

Sugar-free

Prevents tooth decay in kids

Recommended Dosage*	
Age-Group	Dosage
2-5 years	2.5 ml once daily
6-11 years of age	5 ml once daily
> 12 years	8 - 10ml once daily

Patients of **LRTI, Bronchitis & COPD** on Anti-allergic & Montelukast...

Leukofex-AB^{Tab.}

Fexofenadine 120mg + Montelukast 10mg + Acebrophylline 200mg

For 3 dimensional relief

Fexofenadine

- ◆ A quick acting & non-sedating anti-allergic^{1,2}

Montelukast

- ◆ Anti-inflammatory³

Acebrophylline

- ◆ Bronchodilator & Mucolytic⁴
- ◆ Improves muco-ciliary clearance⁴
- ◆ Prevents alveolar collapse⁴

In

LRTI

Bronchitis

COPD

1 Tablet

Per Day
